Education

The University of North Carolina at Charlotte — Jan 2025 – Dec 2027
Bachelor of Science, Management Information Systems, Bachelor of Science, Business Analytics — Charlotte, NC

- Minors: Political Science; American Studies
- Dean's List (Spring 2026)

Wake Technical Community College — Jan 2023 – Dec 2024
Associate of Arts, Business Administration — Raleigh, NC

Experience

Apple Support College Program Advisor — May 2025 – Present
Apple — Remote

- Resolve technical issues across Apple's hardware, software, and services ecosystem using internal tools and workflows, with an emphasis on first-contact resolution and KPI-driven performance.
- Deliver clear, empathetic communication to a diverse customer base while maintaining Apple's standards for confidentiality, service quality, technical accuracy, and user experience.

Frontend Lead — Feb 2021 – Oct 2023
Invii — Raleigh, NC

- Owned all frontend development for a startup, taking products from first prototype to production.
- Built and delivered internal dashboards and user-facing apps in Vue.js, Nuxt, and TailwindCSS, delivering responsive, accessible interfaces across the product line.

Business Analyst Intern — Jun 2021 – Aug 2021
City of Raleigh Municipal Government — Raleigh, NC

- Conducted market research for Wotter, a venture-backed swimwear brand, identifying where a new product line could fit within their existing lineup.
- Established a partnership between a local arts school and Wotter, coordinating student-created artwork to be printed on the new product line.

Projects

Nocturne — Sep 2024 – Present
Custom Firmware and Companion App Ecosystem for Spotify Car Thing Hardware

- Led development of Nocturne, an open-source firmware ecosystem with 700+ sponsors and 1,700+ users.
- Architected embedded Linux on ARM Cortex-A53 with a Rust daemon, BlueZ, and A/B OTA updates.
- Built a touch-optimized React 19 SPA with media controls, media exploration, and hardware integration.

Bagel Fund — May 2024 – Present
Early-Stage Project Funding Initiative

- Collaboratively contributed over $15,000 to support young innovators through team-based funding decisions.
- Identified promising project proposals in areas including robotics, AI literacy, and elder care technology.
- Provided coaching to help refine concepts, including self-driving RC cars and computer vision applications.

GeneCodex — May 2023 – Present
In-Browser Bioinformatics Platform

- Built a client-side platform to process and visualize genetic data entirely in the browser.
- Integrated SNPedia data to provide trait analysis for health, appearance, and behavior.

Certifications

- Google Coursera Certifications:

Agile Project Management (Nov 2024) · Project Planning (Oct 2024) · Project Initiation (Sep 2024) · Foundations of Project Management (Aug 2024)
